Table of Contents

Work through each part in order. Use a fresh test account for each role.

Part 1 — Authentication & Onboarding	CUSTOMER	VENDOR	ADMIN
Part 2 — Public Browsing (Unauthenticated)	ALL / PUBLIC		
Part 3 — Customer Flows	CUSTOMER		
Part 4 — Vendor Flows	VENDOR		
Part 5 — Admin Flows	ADMIN		
Part 6 — Cross-Cutting Scenarios	ALL ROLES		
Part 7 — Known Gaps	ALL ROLES		

1

Authentication & Onboarding

Sign-up, login, logout, role-based access control, and Stripe Connect setup

CUSTOMER

VENDOR

ADMIN

CUSTOMER AUTH

- ☐ Sign up as a new customer via Auth0
- ☐ Log in as an existing customer
- ☐ Log out and confirm session is fully cleared
- ☐ Confirm redirect to correct dashboard after login
- ☐ Try accessing [/dashboard](#) while logged out — should redirect to login

VENDOR AUTH & ONBOARDING

- ☐ Sign up as a new vendor via Auth0
- ☐ Complete onboarding wizard — business name, owner info, confirmation step
- ☐ Verify vendor account is created and linked to the user record
- ☐ Initiate Stripe Connect onboarding — confirm redirect to Stripe
- ☐ Complete Stripe Connect and confirm successful return to vendor dashboard
- ☐ Trigger Stripe Connect refresh page ([/vendor/connect/refresh](#)) — handles gracefully
- ☐ Log out as vendor and confirm session is cleared
- ☐ Try accessing [/vendor/dashboard](#) while logged out — should redirect to login
- ☐ Try accessing [/vendor/dashboard](#) as a customer — should be blocked / redirected

ADMIN AUTH

- ☐ Log in as admin and confirm admin dashboard loads correctly
- ☐ Try accessing [/admin](#) as a customer — should be blocked
- ☐ Try accessing [/admin](#) as a vendor — should be blocked

HOME & NAVIGATION

- ☐ Home page loads with featured listings carousel
- ☐ Hero search (category, subcategory, location) redirects to Browse with filters pre-applied
- ☐ Terms of service page loads
- ☐ Privacy policy page loads
- ☐ 404 page renders for a nonexistent route

BROWSE & SEARCH

- ☐ Browse page loads with listing cards
- ☐ Filter by category — listing results update correctly
- ☐ Filter by subcategory — results narrow correctly
- ☐ Filter by price range — results respect min/max
- ☐ Filter by tag — results respect the tag filter
- ☐ Sort by relevance, price (low→high), price (high→low), newest
- ☐ Search by location — results reflect geographic filter
- ☐ Pagination or infinite scroll works through multiple pages of results

LISTING DETAIL

- ☐ Click a listing card — navigates to listing detail page
- ☐ Listing detail shows photo gallery, description, pricing, and service area info
- ☐ Package container listing shows child package items
- ☐ Add-ons section displays attached add-ons
- ☐ Reviews section renders star ratings and written reviews
- ☐ Vendor shop link is present and navigates to public vendor shop
- ☐ Public vendor shop (</vendor/hub/:id>) loads with cover photo, tagline, and listings

PROFILE & ACCOUNT

- ☐ View and edit profile — name, email, location, preferred language
- ☐ Change preferred language — UI updates to selected language
- ☐ Save default location — persists on next visit / page reload
- ☐ Delete customer account — data is soft-deleted, session ends

PLANNING BOARDS (SAVE LISTINGS)

- ☐ Click heart icon while logged out — prompted to log in
- ☐ Click heart icon while logged in — board picker opens
- ☐ Create a new planning board from the picker
- ☐ Save a listing to an existing board
- ☐ Remove a listing from a board
- ☐ Delete a board entirely
- ☐ View board contents — all saved listings appear
- ☐ Heart icon shows filled / active state if listing is already saved

EVENT PLANNING

- ☐ Create a new event — select event type (photographer, caterer, DJ, florist, videographer, prop/decor)
- ☐ Fill in event-specific details: guest count, location, date, start time
- ☐ Fill in category-specific fields (e.g. photographer details, catering details)
- ☐ View saved events in Customer Events page
- ☐ Vendor recommendations load correctly based on event type and location
- ☐ Reuse a saved event when starting a new booking

CHECKOUT & BOOKING CREATION

- ☐ Navigate to a listing and click "Book"
- ☐ Fill in event details — location, date, time, guest count
- ☐ Select an available date — date picker shows no error
- ☐ Try selecting a date blocked by vendor vacation — date is unavailable
- ☐ Try selecting a date with an existing confirmed booking — date is unavailable
- ☐ Apply a valid promo code — discount reflects in pricing breakdown
- ☐ Apply an expired promo code — error message shown, no discount applied
- ☐ Apply a promo code that has reached its usage limit — error shown
- ☐ Apply an invalid / nonexistent promo code — error shown
- ☐ Checkout for a listing with a security deposit — deposit line item appears separately
- ☐ Checkout for an out-of-service-radius listing — travel fee notice is shown
- ☐ Checkout for a listing with add-ons — select add-ons, pricing updates in real time
- ☐ Review full pricing breakdown (base, platform fee, deposit if any)
- ☐ Complete payment with a Stripe test card
- ☐ Booking created as **pending** (non-instant-book) or **confirmed** (instant-book)
- ☐ Confirmation screen displays after successful payment
- ☐ Customer receives a **new_booking** notification

BOOKING LIFECYCLE

- ☐ View all bookings in Customer Dashboard (pending, confirmed, completed, cancelled)
- ☐ View a single booking detail — timeline, status, and full pricing breakdown
- ☐ Status updates to **confirmed** after vendor confirms
- ☐ Status updates to **completed** after event date passes
- ☐ Cancel a booking before vendor confirms — refund per cancellation policy
- ☐ Cancel a confirmed booking — refund per policy applied
- ☐ Update event details on an existing booking — changes are saved

TRAVEL FEE PROPOSALS

- ☐ Vendor proposes a travel fee — customer sees it in booking detail
- ☐ Customer receives **travel_fee_proposed** notification
- ☐ Customer accepts the travel fee — booking proceeds normally
- ☐ Customer declines the travel fee — booking enters cancelled / negotiation state

MESSAGING

- ☐ Open Customer Messages from dashboard — conversation list loads
- ☐ Send a message to a vendor in an active booking chat
- ☐ Receive a vendor message and see it appear without refresh
- ☐ Unread count badge updates and clears when message is opened
- ☐ Send a file attachment in chat
- ☐ Type a phone number / email / URL in chat — circumvention warning modal appears, send is blocked
- ☐ Chat is locked / expired 30 days after event date

REVIEWS

- ☐ After event completion, a review prompt appears (notification or dashboard prompt)
- ☐ Submit a star rating + written review for a completed booking
- ☐ Try submitting a second review for the same booking — should be blocked
- ☐ Review appears on the public listing detail page

DISPUTES

- ☐ Navigate to Customer Disputes in dashboard
- ☐ File a dispute on an eligible completed booking
- ☐ Select dispute type — service not as described, vendor no-show, safety concern, other
- ☐ Upload a PDF attachment with the dispute filing
- ☐ Enter a claim amount
- ☐ Dispute appears in customer dispute list with status **open**
- ☐ View dispute status transitions — open → pending_review → resolved
- ☐ Try to file a dispute on an ineligible booking — action is blocked
- ☐ Receive notification when dispute is resolved by admin

PROFILE & SHOP SETUP

- ☐ View and edit vendor profile — business name, address, service radius, qualifications, about text
- ☐ Upload a shop profile photo — renders correctly in circular crop
- ☐ Upload a shop cover photo — renders correctly as banner
- ☐ Add / edit shop tagline
- ☐ Select hobbies / interests as multi-select pills
- ☐ Add social / online profile links
- ☐ Toggle shop **inactive** — shop disappears from public Browse immediately
- ☐ Toggle shop **active** — shop re-appears in Browse
- ☐ Delete vendor account — soft-deleted, session ends

MULTIPLE VENDOR PROFILES

- ☐ Create a second vendor profile
- ☐ Switch between profiles — active profile context updates
- ☐ Deactivate a profile — hidden from public
- ☐ Reactivate a profile — returns to public visibility

LISTING MANAGEMENT

- ☐ Create a new listing — fill in title, description, category, subcategory
- ☐ Upload at least one photo — appears in listing editor and preview
- ☐ Upload multiple photos — all photos saved and displayed in correct order
- ☐ Set pricing (per day, per hour, or per quantity)
- ☐ Configure service area — **travel-to-guests** with radius, or **guests-come-to-me**
- ☐ Configure logistics fees — travel, delivery, setup, takedown toggles + amounts
- ☐ Toggle instant book on — bookings skip vendor confirmation
- ☐ Toggle instant book off — bookings require vendor confirmation
- ☐ Set a security deposit amount
- ☐ Set cancellation policy — select flexible / moderate / strict preset
- ☐ Customize cancellation tiers (days before event, refund %)

- ☐ Toggle weather clause on the policy
- ☐ Toggle force majeure clause
- ☐ Set a reschedule window (months allowed)
- ☐ Save as draft — appears in listings with "Draft" status
- ☐ Publish listing — status changes to "Pending" (admin review) or "Active"
- ☐ Unpublish an active listing — status changes to "Inactive"
- ☐ Edit an existing listing — all changes are persisted
- ☐ Delete a listing — removed from vendor list and public Browse

PACKAGES & ADD-ONS

- ☐ Create a package container listing
- ☐ Add package items to the container
- ☐ Edit a package item
- ☐ Create a standalone add-on listing
- ☐ Attach the add-on to a listing
- ☐ Detach an add-on from a listing
- ☐ Package and add-ons display correctly on the public listing detail page

BOOKINGS

- ☐ New booking appears in Vendor Bookings page with "Pending" status
- ☐ Receive a **new_booking** notification
- ☐ Confirm a pending booking — status changes to **confirmed**, customer is notified
- ☐ Reject a pending booking — booking cancelled, customer is notified
- ☐ View booking detail — event date, customer info, pricing, line items

TRAVEL FEE PROPOSALS

- ☐ Propose a travel fee on an out-of-radius booking
- ☐ View proposal status — pending, accepted, declined
- ☐ Receive notification when customer accepts or declines

MESSAGING

- ☐ Open Vendor Messages — conversation list loads
- ☐ Send a message to a customer
- ☐ Receive and open a message — unread count clears
- ☐ Type a phone number / email / URL in chat — circumvention warning modal blocks send
- ☐ Send a file attachment in chat
- ☐ Chat is locked / expired 30 days after event date

REVIEWS

- ☐ View all customer reviews on Vendor Reviews page
- ☐ Aggregate rating displays correctly (average, total count, response rate)
- ☐ Reply to a customer review — reply appears under the review on the listing page
- ☐ Attempt to reply twice to the same review — should be blocked

PAYMENTS & PAYOUTS

- ☐ View payment history in Vendor Payments — statuses are accurate
- ☐ Payout statuses shown correctly — not_ready, eligible, scheduled, paid
- ☐ Access Stripe Connect dashboard link from Payments page
- ☐ Verify payout amount = booking total minus platform fee

DISCOUNTS

- ☐ Create a promo code — set percentage off, date range, usage limit
- ☐ Create a public sale on selected listings — set date range and percentage
- ☐ Confirm promo code validates correctly during customer checkout
- ☐ Confirm promo code respects the usage limit (declines once exceeded)
- ☐ Confirm promo code respects date range (declines outside window)
- ☐ Edit an existing discount
- ☐ Delete a discount — no longer redeemable

NOTIFICATIONS

- ☐ View Vendor Notifications page
- ☐ Filter notifications by type — bookings, messages, payments, reviews, calendar
- ☐ Mark a notification as read — read indicator updates
- ☐ Old notifications (90+ days) are not shown

VACATION BLOCKS & AVAILABILITY

- ☐ Create a vacation block for a date range
- ☐ Confirm blocked dates are unavailable during customer checkout
- ☐ Delete a vacation block — dates become available again

GOOGLE CALENDAR SYNC

- ☐ Initiate Google OAuth from vendor settings — redirects to Google consent screen
- ☐ Complete OAuth and confirm token stored — calendar list appears
- ☐ Select an existing calendar to sync with EventHub
- ☐ Create a new EventHub-specific Google Calendar
- ☐ Confirm a booking syncs as an event to Google Calendar after vendor confirms
- ☐ Cancel a booking — Google Calendar event is removed
- ☐ Sync an existing calendar — past events appear in unmatched events list
- ☐ Map an unmatched Google event to an EventHub listing
- ☐ Unmap a previously mapped event
- ☐ Mark a Google event as a vendor vacation block
- ☐ View reconciliation status — any sync issues are flagged
- ☐ Use repair tool to fix a broken booking sync

DISPUTES

- ☐ File a dispute on an eligible completed booking — travel cost recovery, damage claim, customer no-show, other
- ☐ Upload a PDF attachment with the dispute filing
- ☐ Enter a claim amount

- ☐ View dispute in Vendor Disputes list with correct status
- ☐ Respond to a customer-filed dispute
- ☐ Receive notification when admin resolves the dispute

CIRCUMVENTION WARNING SYSTEM

- ☐ Enter a phone number in a listing description — content is blocked (hard block)
- ☐ Enter an email address in a listing description — content is blocked
- ☐ Enter a URL or social handle in a listing description — content is blocked
- ☐ Enter soft-flag keyword in description — content saves but is flagged for admin review
- ☐ Same tests for vendor description and tagline fields
- ☐ Receive first circumvention warning — notification and warning count increment
- ☐ Trigger third warning — account is suspended, suspension record created
- ☐ Suspension lift email is sent when suspension expires

DASHBOARD & METRICS

- ☐ Admin dashboard loads — user, listing, booking, and revenue stats visible
- ☐ User growth metric reflects recent signups
- ☐ Listing metric shows correct active / pending / draft counts
- ☐ Booking metric reflects pending / confirmed / completed / cancelled counts
- ☐ Revenue dashboard shows gross revenue, platform fees, vendor payouts
- ☐ Web traffic analytics show page visit data
- ☐ Stripe account balance displays correctly

CIRCUMVENTION MODERATION

- ☐ View list of pending circumvention flags — hard blocks, soft flags, customer reports
- ☐ Dismiss a flag — removed from the queue
- ☐ Issue a warning + remove content — vendor receives warning notification
- ☐ Approve a listing pending review after compliance check — status changes to Active
- ☐ View vendor warnings list — warning number, reason, and date shown
- ☐ View active vendor suspensions
- ☐ View content flagged for re-review

LISTING MODERATION

- ☐ View listings in "Pending" status (flagged by circumvention on publish)
- ☐ Approve a pending listing — status changes to Active, listing appears in Browse
- ☐ Remove a listing with a warning — listing deactivated, vendor warned

DISPUTE MANAGEMENT

- ☐ View all open dispute cases in admin panel
- ☐ Open a specific dispute case — all filings visible
- ☐ Add an admin note to a case
- ☐ View full chronological note history for a case
- ☐ Resolve a dispute — set withheld amount (refund to customer or release to vendor)

- ☐ Confirm customer receives notification after resolution
- ☐ Confirm vendor receives notification after resolution

PAYOUT PROCESSING

- ☐ View payout history — vendor, amount, status, and date shown
- ☐ Trigger payout processing for eligible bookings
- ☐ Verify payout status transitions: eligible → scheduled → paid

CHAT MODERATION

- ☐ View flagged chat messages in admin panel
- ☐ Moderation stats show accurate flagged message counts

FEEDBACK SUBMISSIONS

- ☐ View all feedback submissions — feature requests and bug reports
- ☐ Flag a submission for priority follow-up
- ☐ Submissions include vendor / customer identification

NOTIFICATION END-TO-END

- ☐ Customer creates booking → vendor receives **new_booking** notification
- ☐ Vendor confirms booking → customer receives **booking_confirmed** notification
- ☐ Vendor rejects / cancels booking → customer receives **booking_cancelled** notification
- ☐ Either party sends a message → other party receives **new_message** notification
- ☐ Customer submits review → vendor receives **review_received** notification
- ☐ Travel fee proposed → customer receives **travel_fee_proposed** notification
- ☐ Travel fee accepted → vendor receives **travel_fee_accepted** notification
- ☐ Travel fee declined → vendor receives **travel_fee_declined** notification
- ☐ Payout processed → vendor receives **payout_processed** notification
- ☐ Payment received → vendor receives **payment_received** notification
- ☐ Google Calendar event updated → vendor receives **google_calendar_booking_updated**
- ☐ Google Calendar event deleted → vendor receives **google_calendar_booking_deleted**
- ☐ Google sync error occurs → vendor receives **google_calendar_sync_error**

SECURITY DEPOSIT FLOW

- ☐ Book a listing with a security deposit — deposit charge appears as a separate line item
- ☐ Vendor files a damage claim dispute within the window — deposit is withheld pending resolution
- ☐ Admin resolves dispute — deposit refunded to customer or released to vendor per decision

CANCELLATION POLICY EDGE CASES

- ☐ Book and cancel within the full-refund window — full refund is issued
- ☐ Book and cancel in a partial-refund window — correct partial amount is refunded
- ☐ Book and cancel in the no-refund window — no refund is issued
- ☐ Cancel a booking where a weather clause applies — verify clause affects the refund calculation
- ☐ Confirm the cancellation policy snapshot on the booking matches the policy at the time of booking (not any later vendor edits)

INSTANT BOOK VS. MANUAL CONFIRM

- ☐ Book an instant-book listing — booking immediately goes to **confirmed**, no vendor action needed

- ☐ Book a non-instant-book listing — booking stays **pending** until vendor confirms

PAYMENT EDGE CASES

- ☐ Use Stripe 3DS test card — flow handles **requires_action** state and completes authentication
- ☐ Payment intent fails — booking does **not** enter confirmed state
- ☐ Stripe webhook fires for payment event — booking status updates correctly
- ☐ Duplicate / replayed Stripe webhook event — second event is deduplicated, no double processing

FILE UPLOADS

- ☐ Upload a listing photo — appears in listing editor and public listing
- ☐ Upload a photo over the size limit — error message is shown, upload rejected
- ☐ Upload vendor shop profile photo — circular crop renders correctly
- ☐ Upload shop cover photo — banner renders correctly
- ☐ Upload a PDF dispute attachment — file attached to dispute filing
- ☐ Upload a feedback attachment — file attached to submission

MULTI-LANGUAGE

- ☐ Change preferred language to Spanish — UI renders in Spanish
- ☐ Change to Portuguese — UI renders in Portuguese
- ☐ A listing with an active translation shows translated content in the correct language

FEEDBACK SUBMISSION (ALL ROLES)

- ☐ Submit a feature request with description and optional file attachment
- ☐ Submit a bug report with description and optional file attachment
- ☐ Submission appears in admin feedback queue with correct type and submitter identity

Known Gaps

Features that are incomplete or not yet built — do not mark these as passed

ALL ROLES

DO NOT MARK COMPLETE

☐ Security Deposit — Automated Post-Dispute-Window Refund

The schema and checkout logic for security deposits are done (migration 0068), but the automated trigger that refunds the deposit 48 hours after the event (when no damage claim has been filed) has **not yet been built**. Manual testing of this auto-refund flow will fail. Do not mark this as passed.

As additional gaps are discovered during QA, record them here with the date found and the failing scenario.
